

Curriculum Information

Summer 1 Year 2

Our topic this half term is 'Land Ahoy!'

Ahoy There! Yo ho, yo ho, it's a sailor's life for me! Get your sea legs on, it's time to set sail on the salty seas. Navigate, an adventure with Captain Blade and join his pirate crew. Do you have what it takes to become one of his shipmates? Join shipmate Sam Silver to travel back in time to explore what life as a pirate on the open sea was really like and discover more about these famous pirates and their Caribbean home. We might even discover some pirate treasure along the way!

As writers, we will be trying to persuade Captain Blade to allow us to join his crew before hopefully getting to write our own pirate adventure tale.

As readers, we will continue Phase 6 phonics and aim to improve our fluency and reading stamina in order to help us answer questions in more detail.

In Maths, we will be adding and subtracting numbers using regrouping and adjusting. We will be counting money and calculating change. In addition, we will be exploring 2D shapes and their properties.

In Science, we will continue our learning from year 1, describing how seeds and bulbs grow into plants and what that need to stay healthy.

In Computing, we will use computational thinking to program moving robots.

In Design and Technology, we will learn about different types of mechanisms: levers and sliders, to make a moving picture for our pirate adventure tale.

In Music, we will learn about scales and arpeggios through our whole class percussion lessons.

In PSHE, our focus is on dreams, aspirations and skills. We will also be considering ways to keep money safe and thinking about why people choose to save money.

In PE, we will take part in Team Games and develop our dance skills.

In RE, we will learn what festivals Ramadan and Eid al-Fitr are and recognise the commitments made by Muslims.
